About Mistress of the Domain

-This aspect refers to a woman's God-given authority and capability to rule, subdue, and produce in the domains she has been given. With this authority comes responsibility and accountability to God.

-**Mistress Created** displays this aspect perfectly. She understands God's character and standards, as they are stamped on her. She makes decisions, works diligently, and is productive.

-**Mistress Fallen** is the example of darkness and futility. Her domain is cursed with entropy and her character with rebellion and sin. Her work is irregular and vain.

-**Mistress Redeemed** is the restored mistress, reconnected with her creator. Her work is for eternity, enriched with passion, joy, and a desire to serve. She journeys toward complete restoration and looks forward to God's Kingdom in this world.
